The Clinical Journal of Pain
Volume 13, 1997

Subject Index

AAPM President's Message
  Exploring the issues: A symposium for the media on End-of-Life Care, 186
  State of the AAPD, 283
  What's going on here, 90
  Where have we been? Where are we now? Where are we going?, 3
Adaptation
  Possible deficiencies of pain modulation in fibromyalgia, 189
Affective distress
  What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330
Age
  The classification of patients with chronic pain: Age as a contributing factor, 207
Allodynia
  Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Amitriptyline
  Comparison of amitriptyline and maprotiline in treatment of painful polyneuropathy in diabetics and nondiabetics, 313
Analgesia
  A cross-sectional survey of pain and pharmacological analgesia in Canadian Neonatal Intensive Care Units, 308
  Iontophoretic administration of 2% lidocaine HC1 and 1:100,000 epinephrine in humans, 22
  Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Antecedent hypothesis
  Chronic pain-associated depression: Antecedent or consequence of chronic pain? A review, 116
Anticonvulsants
  The effect of Gabapentin on neuropathic pain, 251

Back pain
  Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221
Beck Depression Inventory
  Assessing depression among persons with chronic pain using the Center for Epidemiological Studies-Depression Scale and the Beck Depression Inventory: A comparative analysis, 163
Behavioral
  Brief cognitive-behavioral group treatment for children's headache, 215
Book reviews
  Learning to Master Your Chronic Pain, edited by Robert N. Jamison, 276
  Mastering Chronic Pain: A Professional's Guide to Behavioral Treatment,edited by Robert N. Jamison, 276
  Musculoskeletal Pain Emanating from the Head and Neck (Current Concepts in Diagnosis, Management and Cost Containment),edited by Murray E. Allen, 275
  Pain Treatment Centers at a Crossroads: A Practical and Conceptual Reappraisal Progress in Pain Research and Management, The Bristol-Myers Squibb Symposium on Pain Research, vol. 7, edited by Mitchell J. M. Cohen and James N. Campbell, 84
  Phantom Pain,edited by Richard A. Sherman, Marshall Devor, D. E. Casey Jones, Joel Katz, and Joseph J. Marbach, 274
  A Practical Approach to Pain Management, edited by Mathew Lefkowitz, Allen H. Lebovits, David J. Wlody and Stuart A. Rubin, 85
  Win the Battle Against Back Pain: An Integrated Mind-Body Approach,edited by Michael S. Sinel, William W. Deardorff, and Theodore B. Goldstein, 274
Brachial plexus avulsion
  Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Brief treatment
  Brief cognitive-behavioral group treatment for children's headache, 215

Calcium channel blocker
  Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Cancer pain
  Palliation of intractable cancer pain by MRI-guided cingulotomy, 260
Center for Epidemiological Studies-Depression Scale
  Assessing depression among persons with chronic pain using the Center for Epidemiological Studies-Depression Scale and the Beck Depression Inventory: A comparative analysis, 163
Children
  Brief cognitive-behavioral group treatment for children's headache, 215
  Pain in 4- to 6-year-old children receiving intramuscular injections, 60
Chronic pain
  Assessing depression among persons with chronic pain using the center for epidemiological studies-depression scale and the Beck Depression Inventory: A comparative analysis, 163
  Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221
  Chronic pain-associated depression: Antecedent or consequence of chronic pain? A review, 116
  The classification of patients with chronic pain: Age as a contributing factor, 207
  The Coping Strategies Questionnaire: A large sample, 43
  CSQ: Five factors or fiction?, 156
  A longitudinal study of pain: Reported pain from middle age to old age, 144
  Pain and patienthood, 9
  Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
  Traumatic brain injury/chronic pain syndrome: A case comparison study, 244
  Utilization patterns of tricyclic antidepressants in a multidisciplinary pain clinic, 324
Chronic pain, faking
  Bias effects in three common self-report pain assessment measures, 74
Chronic pain patients
  Impact of chronic pain patients'job perception variables on actual return to work, 197
Cingulotomy
  Palliation of intractable cancer pain by MRI-guided cingulotomy, 260
Classification
  The classification of patients with chronic pain: Age as a contributing factor, 207
Cognitive behavior
  Brief cognitive-behavioral group treatment for children's headache, 215
Cognitive evaluation
  Motivational correlates of self-reported persistent pain in young adults, 104

Complex regional pain syndrome
Do patient and physician expectations predict response to pain-relieving procedures?, 351
Complex regional pain syndrome type I
Stress infrared telethermography useful in diagnosis, 50
Consequence hypothesis
Chronic pain-associated depression: Antecedent or consequence of chronic pain? A review, 116
Coping
Bias effects in three common self-report pain assessment measures, 74
Pain and patienthood, 9
Coping strategies
The stability of pain coping strategies in young children, adolescents, and adults with sickle cell disease over an 18-month period, 110
Coping Strategies Questionnaire
The Coping Strategies Questionnaire: A large sample, 43
CSQ: Five factors or fiction?, 156

Dating of onset
When did your pain start? Reliabilty of self-reported age of onset of facial pain, 352
Deafferentation pain
Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Decision making
What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330
Depression
Assessing depression among persons with chronic pain using the Center for Epidemiological Studies-Depression Scale and the Beck Depression Inventory: A comparative analysis, 163
Chronic pain-associated depression: Antecedent or consequence of chronic pain? A review, 116
Utilization patterns of tricyclic antidepressants in a multidisciplinary pain clinic, 324
Diabetes
Comparison of amitriptyline and maprotiline in treatment of painful polyneuropathy in diabetics and nondiabetics, 313
Diffuse noxious inhibitory controls(DNIC)
Possible deficiencies of pain modulation in fibromyalgia, 189
Disease-related pain
The stability of pain coping strategies in young children, adolescents, and adults with sickle cell disease over an 18-month period, 110
Dyspareunia
Vulvar vestibulitis syndrome: A critical review, 27

Editorials
Conceptual construct of the specialty of pain medicine, 183
Cyberpain, 89
Opioids and chronic pain, 1
Taxonomy? Never again, 281
Elderly
A longitudinal study of pain: Reported pain from middle age to old age, 144
Electrical stimulation
Possible deficiencies of pain modulation in fibromyalgia, 189
Epidemiology
A longitudinal study of pain: Reported pain from middle age to old age, 144

Faces Pain Scale
Pain in 4- to 6-year-old children receiving intramuscular injections, 60
Facial pain
Traumatic onset of temporomandibular disorders: Positive effects of a standardized conservative treatment program, 337
When did your pain start? Reliabilty of self-reported age of onset of facial pain, 352
Factor analysis
The Coping Strategies Questionnaire: A large sample, 43
CSQ: Five factors or fiction?, 156
Fibromyalgia
Possible deficiencies of pain modulation in fibromyalgia, 189
Functional activities
What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330

Gabapentin
The effect of Gabapentin on neuropathic pain, 251
Goals
Motivational correlates of self-reported persistent pain in young adults, 104

Headache
Brief cognitive-behavioral group treatment for children's headache, 215
Hematuria
Hematuria-loin pain syndrome: Its existence as a discrete clinicopathological entity cannot be supported, 171
Hyperesthesia
Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256

Impairment
The classification of patients with chronic pain: Age as a contributing factor, 207
Infrared imaging
Stress infrared telethermography useful in diagnosis, 50
Intraoral appliance
Traumatic onset of temporomandibular disorders: Positive effects of a standardized conservative treatment program, 337
Iontophoresis
Iontophoretic administration of 2% lidocaine HC1 and 1:100,000 epinephrine in humans, 22

Job perceptions
Impact of chronic pain patients'job perception variables on actual return to work, 197

Letters to the editor
Algorithm for timely recognition and treatment of complex regional pain syndrome (CRPS): A new approach for objective assessment, 264
Glycerol for trigeminal rhizolysis, 272
Living with chronic pain, 178
Organic pathology and disease conviction, 82
Psychiatrists *vs.* psychologists, 179
On rest and pain, 272
The role of exercise for carpal tunnel syndrome, 179
Undiagnosed pain complaints: Trigger points?, 82
Lidocaine
Iontophoretic administration of 2% lidocaine HC1 and 1:100,000 epinephrine in humans, 22
LISREL
CSQ: Five factors or fiction?, 156
Local anesthesia
Iontophoretic administration of 2% lidocaine HC1 and 1:100,000 epinephrine in humans, 22
Loin pain
Hematuria-loin pain syndrome: Its existence as a discrete clinicopathological entity cannot be supported, 171
Low back pain
Distribution of referred pain from the lumbar zygapophyseal joints and dorsal rami, 303
Lumbar zygapophyseal joint
Distribution of referred pain from the zygapophyseal joints and dorsal rami, 303

Maprotiline
Comparison of amitriptyline and maprotiline in treatment of painful polyneuropathy in diabetics and nondiabetics, 313
Medical consumption
Pain and patienthood, 9
Motivation
Motivational correlates of self-reported persistent pain in young adults, 104
Musculoskeletal pain
Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221

Narcotic
Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
Needle pain
Pain in 4- to 6- year old children receiving intramuscular injections, 60
Neonatal Intensive Care Units
A cross-sectional survey of pain and pharmacological analgesia in Canadian Neonatal Intensive Care Units, 308
Neurontin®
The effect of gabapentin on neuropathic pain, 251
Neuropathic pain
The effect of Gabapentin on neuropathic pain, 251
Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Utilization patterns of tricyclic antidepressants in a multidisciplinary pain clinic, 324
Newborns
A cross-sectional survey of pain and pharmacological analgesia in Canadian Neonatal Intensive Care Units, 308

Opiate abuse
Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
Opiates
The effect of Gabapentin on neuropathic pain, 251
Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
Opioids prescription
What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330
Oral administration
Effect of barbiturate on central pain: difference between intravenous administration and oral administration, 368
Orthopedic surgery
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229
Outcome
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229
Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221

Pain
The classification of patients with chronic pain: Age as a contributing factor, 207
Comparison of amitriptyline and maprotiline in treatment of painful polyneuropathy in diabetics and nondiabetics, 313
Do patient and physician expectations predict response to pain-relieving procedures?, 351
Motivational correlates of self-reported persistent pain in young adults, 104
Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
Stress infrared telethermography useful in diagnosis, 50
Pain attitudes
Pain knowledge and attitudes of healthcare providers: Practice characteristic differences, 237
Pain behaviors
What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330
Pain facility treatment
Impact of chronic pain patients'job perception variables on actual return to work, 197
Pain knowledge
Pain knowledge and attitudes of healthcare providers: Practice characteristic differences, 237
Pain management
Pain and patienthood, 9
Pain measurement
Pain in 4- to 6-year-old children receiving intramuscular injections, 60
Pain modulation
Possible deficiencies of pain modulation in fibromyalgia, 189
Pain ratings
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229
Pain recall
When did your pain start? Reliabilty of self-reported age of onset of facial pain, 352
Pain treatment
Prescription opiate abuse in chronic pain patients: Clinical criteria, incidence, and predictors, 150
Patient expectation
Do patient and physician expecations predict response to pain-relieving procedures?, 343
Patient satisfaction
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229
Placebo
Do patient and physician expectations predict response to pain-relieving procedures?, 351
Plan to return to work
Impact of chronic pain patients'job perception variables on actual return to work, 197
Polyneuropathy
Comparison of amitriptyline and maprotiline in treatment of painful polyneuropathy in diabetics and nondiabetics, 313
Postherpetic neuralgia
The effect of Gabapentin on neuropathic pain, 251
Postoperative pain
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229
Prescribing practices
What factors affect physicians's decisions to prescribe opioids for chronic noncancer pain patients?, 330
Prevention
Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221
Procedural pain
A cross-sectional survey of pain and pharmacological analgesia in Canadian Neonatal Intensive Care Units, 308
Psychometrics
The classification of patients with chronic pain: Age as a contributing factor, 207

Quality assurance
Assessment of postoperative pain management: Patient satisfaction and perceived helpfulness, 229

Radiofrequency facet denervation
Distribution of referred pain from the lumbar zygapophyseal joints and dorsal rami, 303
Randomized controlled trial
Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221
Reflex sympathetic dystrophy
Do patient and physician expectations predict response to pain-relieving procedures?, 351
Stress infrared telethermography useful in diagnosis, 50

Response bias
Bias effects in three common self-report pain assessment measures, 74
Response set
Bias effects in three common self-report pain assessment measures, 74
Return to work
Impact of chronic pain patients' job perception variables on actual return to work, 197

Scar hypothesis
Chronic pain-associated depression: Antecedent or consequence of chronic pain? A review, 116
Sickle cell disease
The stability of pain coping strategies in young children, adolescents, and adults with sickle cell disease over an 18-month period, 110
SNX-111
Use of intrathecal SNX-111, a novel, N-type, voltage-sensitive, calcium channel blocker, in the management of intractable brachial plexus avulsion pain, 256
Stability of coping
The stability of pain coping strategies in young children, adolescents, and adults with sickle cell disease over an 18-month period, 110
Survey
A cross-sectional survey of pain and pharmacological analgesia in Canadian Neonatal Intensive Care Units, 308

Temporomandibular disorder
Traumatic onset of temporomandibular disorders: Positive effects of a standardized conservative treatment program, 337
Thermal stimulation
Possible deficiencies of pain modulation in fibromyalgia, 189
Thermography
Stress infrared telethermography useful in diagnosis, 50
Trauma
Traumatic onset of temporomandibular disorders: Positive effects of a standardized conservative treatment program, 337
Traumatic brain injury
Traumatic brain injury/chronic pain syndrome: A case comparison study, 244
Treatment
Bridging the gap: Support groups do not enhance long-term outcome in chronic back pain, 221
Treatment outcome
Traumatic onset of temporomandibular disorders: Positive effects of a standardized conservative treatment program, 337
Tricyclic antidepressants
Utilization patterns of tricyclic antidepressants in a multidisciplinary pain clinic, 324

Vocational rehabilitation
Traumatic brain injury/chronic pain syndrome: A case comparison study, 244
Vulvar pain
Vulvar vestibulitis syndrome: A critical review, 27
Vulvar vestibulitis syndrome
Vulvar vestibulitis syndrome: A critical review, 27
Vulvodynia
Vulvar vestibulitis syndrome: A critical review, 27

Zygapophyseal joint pain
Distribution of referred pain from the lumbar zygapophyseal joints and dorsal rami, 303
International Spinal Injection Society guidelines for the performance of spinal injection procedures: Part 1: Zygapophysial joint blocks, 285

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970: Section 3685 Title 39 United States Code) Date of Filing—October 1, 1997. Title of Publication—The Clinical Journal of Pain; Frequency of Issue—4 issues per year; Annual Subscription Price—$119.00; Location of Known Office of Publication—Lippincott–Raven Publishers, 12107 Insurance Way, Hagerstown, MD 21740; Location of the Headquarters or General Business Offices of the Publisher—227 East Washington Square, Philadelphia, PA 19106; Publisher—Lippincott–Raven Publishers, 227 East Washington Square, Philadelphia, PA 19106; Editor—Peter R. Wilson, M.B., B.S., Ph.D., Department of Anesthesiology, Mayo Clinic, 200 First Street SW, Rochester, MN 55905; Managing Editor—Caren P. Erlichman, Lippincott–Raven Publishers, 227 East Washington Square, Philadelphia, PA 19106 ; Owner—Lippincott–Raven Publishers, a wholly owned subsidiary of Wolters–Kluwer, US Corp., 227 East Washington Square, Philadelphia, PA 19106, 36th Floor, 1185 Avenue of the Americas, New York City, NY 10036; Known Bondholders, Mortgagees, and other security holders owining or holding 1 percent of more of total amount of bonds, mortgages, or other securities—none. A. Total no. copies printed (*net press run*), average 3575, actual 3750; B. Paid circulation 1. Sales through dealers and carriers, street vendors and counter sales, average none, actual none; 2. Mail subscription, average 2398, actual 2341; C. Total paid circulation, average 2398, actual 2351; D. Free distribution by mail, carrier or other means. Samples, complimentary, and other free copies, average 129, actual 54; E. Total distribution (*sum of C and D*), average 2527, actual 2405; F. Copies not distributed 1. Office use, leftover, unaccounted, spoiled after printing, average 1048, actual 1345; 2. Returns from news agents, none; G. Total (*sum of E and F—should equal net press runs shown in A*), average 3575, actual 3750. I certify that the statements made by me above are correct and complete. Beverly V. Dietrich, *Circulation Director*.
